STANDARDS

Whether it is about the power, the functions or the outlook of the guns, we offer items complying with customer's local regulations, including:

- EU's toys standard
- USA's federal rules
- Japan's national airsoft regulation
- Etc...

Tricky requirements welcome!!

Relax...

Our Products' Liability is insured in 196 countries by 

LEGAL PRODUCTION SITES

In China, many Airsoft suppliers manufacture their goods in illegal factories. This causes erratic supplies (quality issues, shipment delays or cancellations, employees bad treatment, factory foreclosure)

We produce in Government-licensed factories according to local and national gun regulations.

That's right...

We ship 100% on schedule all year round.
